枸杞木虱 *Poratrioza sinica* Yang et Li 若虫

枸杞木虱隶属于半翅目 Hemiptera 木虱科 Psyllidae, 是危害枸杞的重要害虫, 以成虫、若虫刺吸叶片组织, 吸食汁液导致致叶片枯黄、树势衰弱、果实发育不良、品质下降。枸杞木虱初孵若虫黄色, 背上具大型褐斑 2 对, 具红色眼点, 体缘具白缨毛。
